Molecular and Biochemical Parasitology 70 (1995) 247–248

MOLECULAR AND BIOCHEMICAL PARASITOLOGY

Contents of Volume 70

Numbers 1 and 2, March 1995
Announcement v

Minireview
Parasitism and chromosome dynamics in protozoan parasites: is there a connection?
M. Lanzer, K. Fischer and S.M. Le Blancq (Germany, USA) 1

Regular papers
Trypanosoma cruzi trans-sialidase gene lacking C-terminal repeats and expressed in epimastigote forms
M.R.S. Briones, C.M. Egima and S. Schenkman (Brazil) 9
Characterization of genes encoding members of the nuclear hormone receptor superfamily from *Onchocerca volvulus*
R.A. Yates, R.S. Tuan, K.J. Shepley and T.R. Unnasch (USA) 19
Surface-associated serine-threonine kinase in *Schistosoma mansoni*
S.J. Davies and E.J. Pearce (USA) 33
Expression of GARP, a major surface glycoprotein of *Trypanosoma congolense*, on the surface of *Trypanosoma brucei*: characterization and use as a selectable marker
A. Hehl, T.W. Pearson, J.D. Barry, R. Braun and I. Roditi (Switzerland, Canada, UK) 45
Toxoplasma gondii tachyzoites possess an unusual plasma membrane adenosine transporter
J.C. Schwab, M. Afifi Afifi, G. Pizzorno, R.E. Handschumacher and K.A. Joiner (USA) 59
Characterization of the lipid moiety of the glycosylphosphatidylinositol anchor of *Trypanosoma cruzi* 1G7-antigen
N. Heise, M.L. Cardoso de Almeida and M.A.J. Ferguson (Brazil, UK) 71
Characterization of a dense granule antigen of *Toxoplasma gondii* (GRA6) associated to the network of the parasitophorous vacuole
L. Lecordier, I. Moleon-Borodowsky, J.-F. Dubremetz, B. Tourvieille, C. Mercier, D. Deslée, A. Capron and M.-F. Cesbron-Delauw (France) 85
Brugia spp. and *Litomosoides carinii*: Identification of a covalently cross-linked microfilarial sheath matrix protein (shp2)
J. Hirzmann, A. Schnaufer, M. Hintz, F. Conraths, S. Stirm, H. Zahner and G. Hobom (Germany) 95
A member of the clpb family of stress proteins is expressed during heat shock in *Leishmania spp.*
A. Hübel, S. Brandau, A. Dresel and J. Clos (Germany) 107
Purification and characterization of a soluble nucleoside diphosphate kinase in *Trypanosoma cruzi*
R.M. Ulloa, J.P. Muschietti, M. Veron, H.N. Torres and M.T. Tellez-Iñón (Argentina, France) 119
High-density-lipoprotein-independent killing of *Trypanosoma brucei* by human serum
S. Tomlinson, A.-M. Jansen, A. Koudinov, J.A. Ghiso, N.-H. Choi-Miura, M.R. Rifkin, S. Ohtaki and V. Nussenzweig (USA, Japan) 131
Identification and characterization of myophilin, a muscle-specific antigen of *Echinococcus granulosus*
R.M. Martin, R.B. Gasser, M.K. Jones and M.W. Lightowlers (Australia) 139
Multiple genes code for high-molecular-mass rhoptry proteins of *Plasmodium yoelii*
M.B. Borre, C.A. Owen, J.K. Keen, K.A. Sinha and A.A. Holder (UK) 149
A novel cultivation technique for long-term maintenance of bloodstream form trypanosomes in vitro
F. Hesse, P.M. Selzer, K. Mühlstädt and M. Duszenko (Germany) 157
Pfcrk-1, a developmentally regulated cdc2-related protein kinase of *Plasmodium falciparum*
C. Doerig, C. Doerig, P. Horrocks, J. Coyle, J. Carlton, A. Sultan, D. Arnot and R. Carter (UK) 167

Short communications
Isolation of a larval surface glycoprotein from *Haemonchus contortus* and its possible role in evading host immunity
K. Ashman, J. Mather, C. Wiltshire, H.J. Jacobs and E. Meeusen (Australia) 175

Phylogenetic place of kinetoplastid protozoa inferred from a protein phylogeny of elongation factor 1α
T. Hashimoto, Y. Nakamura, T. Kamaishi, J. Adachi, F. Nakamura, K.-i. Okamoto and M. Hasegawa (Japan) 181
Identification of an *Entamoeba histolytica* gene encoding a protein homologous to prokaryotic disulphide oxidoreductases
I. Bruchhaus and E. Tannich (Germany) 187
Amplification by polymerase chain reaction of *Plasmodium falciparum* DNA from Giemsa-stained thin blood smears
M. Kimura, O. Kaneko, A. Inoue, A. Ishii and K. Tanabe (Japan) 193
Trypanosoma cruzi heat-shock protein 90 can functionally complement yeast
G. Palmer, J.-F. Louvion, R.S. Tibbetts, D.M. Engman and D. Picard (Switzerland, USA) 199
A multitude of circular DNAs exist in the nucleus of *Entamoeba histolytica*
S.K. Dhar, N.R. Choudhury, A. Bhattacharaya and S. Bhattacharya (India) 203
Mitochondrial heat shock protein 70 is distributed throughout the mitochondrion in a dyskinetoplastic mutant of *Trypanosoma brucei*
K.G. Klein, C.L. Olson and D.M. Engman (USA) 207
Isolation and sequences of cDNA clones for cytosolic and organellar hsp70 species in *Eimeria* spp.
P.P.J. Dunn, K. Billington, J.M. Bumstead and F.M. Tomley (UK) 211
Dimorphism of the C terminus of the *Plasmodium vivax* merozoite surface protein 1
M. Cielo Pasay, Q. Cheng, C. Rzepczyk and A. Saul (Philippines, Australia) 217
Molecular cloning of the cuticular collagen gene *Bmcol-2* from *Brugia malayi*
A.L. Scott, P. Yenbutr, S.W. Eisinger and N. Raghavan (USA) 221
The structural organization of an α2 (type IV) basement membrane collagen gene from the filarial nematode *Brugia malayi*
V.R. Caulagi and T.V. Rajan (USA) 227
Identification of *Plasmodium falciparum* histone 2B and histone 3 genes
B.J. Bennett, J. Thompson and R.L. Coppel (Australia) 231
The primary structure of a putative phosphatidylethanolamine-binding protein from *Plasmodium falciparum*
F. Trottein and A.F. Cowman (Australia) 235
The construction of spliced leader cDNA libraries from the filarial nematode *Brugia pahangi*
S.A.M. Martin, F.J. Thompson and E. Devaney (UK) 241

Contents of Volume 70 247
